

Risk Advisory & Consulting Services

Alacer's talented resources are frequently engaged to address or prepare for government regulatory review. Our government services team has worked with regional, state, national, and international bodies. Work includes advisory and program lead roles impacting from thousands to the billions of dollars for NGOs, government agencies, regulated vendors and military.

Government Risk Advisory & Consulting Experience

- Engaged as part of a military-private industry joint effort to improve efficiency in various base operations. Specifically, working with PTSD and treatment paperwork reduction, and access-to care expediency for veterans and active duty personnel.
- Extensive work with V.A. hospitals in the Midwest to achieve compliance for lab operations and meet anti-animal cruelty standards.
- Employed by highly regulated financial and healthcare service providers around the country to provide audit preparation, findings remediation, and steady-state solutions.

People

Alacer consultants are deeply experienced professionals at the peak of their careers. Our consultants have graduate credentials, advanced certifications and no fewer than 10 years of experience in their practice areas, many with 20 or more.
